# Vision of the IPv6 Program

Guarantee IPv4 Internet business continuity & a smooth transition to the new IPv6 based Internet, products & services. The scope consists mainly of :

Sensitivity: Unrestricted

6 June 2018

2

# Status 24/05/2018

More than 80% of residential customers using dual stack Fast Internet

>1000 professional customers with IPv6 enabled cpe and dual stack

Ipv6 on Mobile Internet limited employee trial

Dual stack

On all access technologies (2G/3G/4G)

Manual APN config (depending of your phone)

# Mobile Internet (2G/3G/4G)

Main driver : reduce impact & cost of CGN

=>but not a positive business case !!

Reduce load on CGN hardware => reduce cost

When part of the apps can work without ipv4 we hope that we can free up the ipv4 address part of the sessions (DNS6!!)

Main challenges : Mobile chain is more complex than Fixed Internet  
=> more components to make compliant & test => more risk of bugs

All tools for Service Desk operators have to be compliant before doing larger scale trials

IPv4 speed

- 81.169.107.56
- ISP: Proximus
- Speed: 59.1 Mbit/s

IPv6 speed

- 2a02:a020:70:9e:0:9:596e:cf01
- ISP: Belgacom
- Speed: 93.4 Mbit/s

Your speed test results

IPv4: 59.1 Mbit/s

# Some stats

25% of our total traffic is IPv6

For a dual stack customer approx. 36% of his traffic is IPv6.

Top sources of ipv6 traffic for our customers :

Apple

Facebook

Google / Youtube

Netflix

Microsoft

Amazon

+ Dropbox, Edgecast, Cloudflare, Fastly, ...

# Some stats (2)

Traffic sources : top 30 networks (AS numbers), excluding CDN servers

## Work in progress

AS Number	%IPv4	%IPv6
Facebook-32934	25,39%	74,61%
M247-9009	54,20%	45,80%
Apple-714	56,60%	43,40%
Google-15169	57,61%	42,39%
CloudFlare-13335	59,82%	40,18%
Microsoft-8068	71,14%	28,86%
Edgecast-15133	81,49%	18,51%
Level3-3356	81,81%	18,19%
Netflix-2906	85,30%	14,70%
Microsoft-8075	86,74%	13,26%
Fastly-54113	91,84%	8,16%
Telenet-6848	92,19%	7,81%
Limelight-22822	93,12%	6,88%

## Still a lot of work to do

AS Number	%IPv4	%IPv6
Akamai-20940	95,44%	4,56%
Amazon-16509	95,48%	4,52%
