Impact requires a EU-wide modern Internet Open-Standards Strategy within the EU Tech Sovereignty package

Fragmentation carries an economic cost

Fragmentation **BETWEEN** and **WITHIN** Today's Infrastructures & Services

Higher cost

Non-Future proofed
Cost of Opportunity

Delayed innovation

Untested New Architectures
New Internet Open-Standards

Market fragmentation

Incentives not clear. Big Picture.
Institutional and ecosystem support

Enabling Pillars for Success

A European Modern Internet Open Standards Strategy
within Europe’s Tech Sovereignty Package

Acceleration Support & Observatory EU-wide Hub/Agency

3rd Pillar
SDOs Collab.
Smart Regulation

1st Pillar
Competitiveness
Procurement

2nd Pillar
EU Capacity &
Skills Building

4th Pillar
Sovereign
EU R&D&I

Open-standard foundation for Europe’s economy

We have all needed resources in Europe.

Member States, Organizations & Public bodies need Guidance & clear timelines

Strategic Tool: Internet IPv6-family open-standards

Cloud

Massive Scalability
Sovereign & Interoperable

AI

Efficient AI Systems
Faster Innovation

Industry

Less Lock-in
Lower Entry Barriers

Critical Services

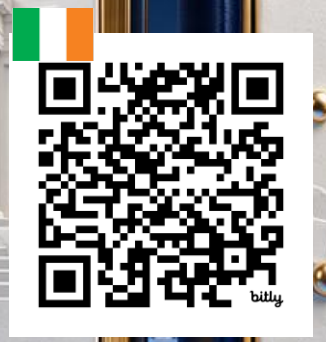

Resilent Services
All Attack Surfaces

An invitation to European Action

Public authorities, industry and academia

Cover Letter

Policy direction
